

# THE COMMONWEALTH OF AUSTRALIA YOUTH AFFAIRS

Current programs are hypocrisy when we have a government committed to a GST, globalisation and GATS. This has lost 90% of our manufacturing industry and 70 % of our rural farming sector, destroying job opportunities, resulting in record youth unemployment, causing despair and suicide. Without a complete change of direction to tackle the root cause of the problems, these programs remain a farce, a meagre treatment, and not a cure...

## NATIONAL YOUTH CIVIL SERVICE

A Youth National Service Program would be beneficial to Australia; its youth and its citizens. The reasons for this are obvious. We intend also that the youth would receive concessions, uniform, footwear and PAY. (Policy expansion into this area is intended. Material will be presented as soon as it has been compiled).

- One Nation suggests that National Youth Civil Service Programs would be beneficial for training, self-discipline, self-respect and self-esteem. The Programs would offcourse primarily cover the 3 Armed Services, however also shall include Hospital, emergency services, Customs, National Parks, Fisheries and Forestry. (Concession for exclusion due to a variety of circumstantial reasons shall also exist).
- We believe in second chance boot camps for wayward youth, which will teach them the error of their ways, respect, self-respect, responsibility and discipline. These programs have been piloted successfully and the numbers of participants who re-offend are encouragingly very low. Compare that to the current system.
